VILLAGE IDIOT MARCH-APRIL 2022

VLADIMIR PUTIN

Russia's increasingly autocratic KGB-trained President, obsessive shirt-remover, germaphobe, power-lifter and billionaire kleptocrat who has angrily, in a four-hour address, recognised the independence and sovereignty of the Donetsk People's Republic and Luhansk People's Republic, Russian proxy states in east Ukraine, and moved in troops in breach of the elusive Minsk accords, in breach of international law and as a probable prelude to a pathological and bloody war against Ukraine, a sophisticated modern state, the second biggest in Europe, with a population of 44 million, but in the Russian sphere of influence: the most dangerous war in Europe since the second world war.
